7. **Studiegids / Study guide:** Hierdie is 'n belangrike dokument wat elke student dwarsdeur die module moet hê. Anders as in die eerste semester, waar 'n gedrukte kopie van die studiegids gratis verskaf is, word studente versoek om hul eie kopie vir hierdie semester te druk en te bind. Ons beveel aan dat Nashua gebruik word vir die druk en bind van die studiegids. Daar word van studente verwag om hul gedrukte studiegids na elke lesing te bring en dit konsekwent dwarsdeur die module te gebruik. / This is an important document that every student is required to have throughout the module. Unlike in the first semester, where a printed copy of the study guide was provided free of charge, students are required to print and bind their own copy for this semester. We recommend using Nashua for the printing and binding of the study guide. Students are expected to bring their printed study guide to every lecture and make consistent use of it throughout the module.
8. **ALEKS tutor:**
- Die tutor is beskikbaar vir studente om te gebruik tydens die leerproses om MTHS121 te verstaan. / *The tutor is available for students to use in the learning process of understanding MTHS121.*

9. **Deelnamepunt / Participation mark (PM):**

PM = 50% (9 weeklikse KT / weekly CT) + 5% (2 Aleks toetse/tests) + 5% (klas opdragte/bywoning / class assignments/attendance) + 40% (1 semestertoets/semester test)

- Weeklikse toetse / Weekly tests: 'n Totaal van nege (9) tutoriaaltoetse sal gedurende die geskeduleerde tutoriaalsessies afgeneem word. Elke toets sal binne 'n tydperk van 15 minute voltooi word en sal uit 10 gemerk word. Om te kwalifiseer vir die 50%-bydrae van die tutoriaaltoetskomponent tot die semesterpunt, moet studente ten minste sewe (7) van die nege (9) geskeduleerde toetse voltooi. Studente wat minder as die vereiste sewe (7) toetse voltooi, sal 'n punt van nul ontvang vir die weeklikse tutoriaaltoetskomponent van die semesterpunt. Let asseblief daarop dat hierdie vereiste nie impliseer dat slegs die beste sewe (7) punte uit die nege (9) toetse in ag geneem sal word nie. Studente moet 'n minimum van sewe (7) toetse voltooi om te kwalifiseer vir die tutoriaaltoetsbydrae, en alle voltooide toetse sal bydra tot die berekening van hierdie komponent. / *A total of nine (9) tutorial tests will be administered during the scheduled tutorial sessions. Each test will be completed within a 15-minute period and will be marked out of 10. To qualify for the 50% contribution of the tutorial test component towards the semester mark, students are required to complete at least seven (7) of the nine (9) scheduled tests. Students who complete fewer than the required seven (7) tests will receive a mark of zero for the weekly tutorial test component of the semester mark. Please note that this requirement does not imply that only the best seven (7) marks out of the nine (9) tests will be considered. Students must complete a minimum of seven (7) tests to qualify for the tutorial test contribution, and all completed tests will contribute towards the calculation of this component.*
- Aleks toetse/tests: 2 Aleks-toetse met 'n punt uit 10 op die Alex-platform. / *2 Aleks tests with a mark out of 10 on Aleks platform.*
- Klas opdragte/bywoning / Class assignments/attendance: U moet alle klasse bywoon. / *You must attend all classes.*

 - geregtig te wees om eksamen te skryf
 - aan deelname- en bywoningsvereistes te voldoen/

Note: Health conditions or personal circumstances during the semester cannot be used as grounds for exemption, qualification to sit the exam. NWU's General Academic Rules (A-Rules) state that students should comply with a class attendance requirement of at least 80% as the norm for:
